

IMPORTANT note: new PCB from S/N 1727xxxx (calendar week 27/2017)

All copyrights belong to us. The drawing must be returned after use. It may not be duplicated, used for its own purposes, nor communicated to third parties.

Notes:

1. for inputs E1 u. E2 (5-24V DC) applies to DC supply:
„- E“ = „-“ of power supply
2. Jumper or solder bridge for selection of the input typ (applies to E1 and E2 simultaneously)

Input = potentialfree contact (position „+Vin“)

Input = 5-24V DC digital (position „0V“)
